What products does solar illuminations offer?

Solar Illuminations offers a large selection of commercial solar-powered lighting systems. Most of the products we offer are commercial grade kits that are designed specifically for your requirements.

Are solar powered lighting systems a win-win option?

At a time where there is continuing pressure for companies and organizations to go green and be more environmentally friendly, a solar powered lighting system is a win-win option. Solar Illuminations offers a large selection of commercial solar-powered lighting systems.

How many lumens does a solar light have?

Rated at up to 3,000 lumens per light, these solar lights are built to illuminate large outdoor areas without wiring, switches, or complicated setup. Once mounted, they charge during the day and operate automatically at night, making them a set-it-and-forget-it solution for exterior lighting.

Which solar light is best for cloudy days?

Solar lights can still charge on cloudy days, but their performance may be reduced. For cloudy days, we recommend the AloftSun Solar Motion Sensor Outdoor Light. It has a durable, waterproof build and a powerful brightness that makes it a reliable option even on cloudy days.

Solar street lights and solar post tops are a favorite among HOAs and rural areas that are looking to add illumination on quiet roads. These fixtures have a smart motion sensor that dims the ...
