What's going on with Baku oil refinery & kyrgyzneftgaz?

Meanwhile, as noted by Kyrgyzstan's Energy Minister Taalaibek Ibraev during the COP29 conference in Baku, progress has been made in negotiations between the management of Baku Oil Refinery and Kyrgyzneftgaz. "An agreement has been reached for the supply of a pilot batch of 15 tons of fuel, and deliveries are expected shortly.

Why should Azerbaijan modernize the Baku oil refinery?

In the near future, the modernization of the Baku Oil Refinery will facilitate a substantial expansion of Azerbaijan's fuel and oil product exports, including to foreign markets that demand high-quality standards.

What are the export plans for Baku oil refinery?

The export plans for the Baku Oil Refinery are quite extensive in terms of geography, with approximately 25% of the gasoline produced and around 40% of the diesel fuel and jet fuel expected to be exported to foreign markets. However, ensuring the supply of the domestic market remains the more immediate priority.
