---

Energy storage virtual power plant (VPP) provider Sonnen is partnering with Abundance Energy and Energywell Technology Licensing ...

With a power output of 30MW and a storage capacity of 60MWh, this installation will play a vital role in stabilizing the local grid as renewable energy sources like wind and solar ...

Energy storage virtual power plant (VPP) provider Sonnen is partnering with Abundance Energy and Energywell Technology Licensing to develop a battery-enabled VPP ...

L.A. Mayor Karen Bass on Tuesday announced the completion of a major new solar and battery storage project. The sprawling field of ...

On July 3, the launching ceremony of the Dunhuang 15MW/60MWh energy storage power station project was held at Gezhoubu (Gansu) Energy Technology Co., Ltd. The first batch of 8 ...

L.A. Mayor Karen Bass on Tuesday announced the completion of a major new solar and battery storage project. The sprawling field of solar panels and batteries in the Mojave ...

Discover DBL's 30 MW / 60 MWh Battery Energy Storage System in Santa Paula, CA, supporting regional energy reliability and sustainability with expert design and construction.

Increased demands on the power system to ensure a stable power supply and higher power quality due to new technologies and processes. This 30MW/60MWh energy storage project ...

ArcLight Capital Partners and Elevate Renewables, a battery storage developer, have announced a milestone battery storage infrastructure project at the Arthur Kill Power ...

Two storage systems Convergent Energy + Power financed and developed in Orange County, California, are now operational in Southern California Edison (SCE) territory.

Global solar and energy storage leader Sungrow has announced the successful commissioning of a 60MWh Battery Energy Storage System (BESS) project in Simo, Finland, ...

The Eland Solar-plus-Storage Center project alone will generate enough power to serve more than 266,000 homes in Los Angeles and push the city's clean energy share above ...
