Earthquake Resistant, Easily Movable, Eco-Friendliness, Flexibly Combinable, Leak Proof, Moisture Proof, Thermal Insulation, Waterproof, Wind Resistance Material

This is not a fictional scene, but the real experience of earthquake victims in Myanmar. According to statistics, the earthquake caused the collapse of more than 300 ...

In the Myanmar earthquake rescue, folding boxes played an important role with their characteristics of rapid deployment, efficient ...

Easy Transportation - When folded, it occupies only 1/4 the volume of a standard container, allowing four times more units to be transported at the same cost. Strong and ...

With a seismic resistance of level 9, wind resistance of level 12, and a load-bearing capacity of 150 kg/m², safety and flexibility coexist. More than just a dwelling, it's sustainable spatial art. ...

Discover why a folding container house is the ultimate earthquake shelter. Learn about its durable, seismic-resistant design, rapid 10-minute installation, and versatile uses in ...

Easy Transportation - When folded, it occupies only 1/4 the volume of a standard container, allowing four times more units to be ...

Advantages: 5 minutes quick installation, fireproof, waterproof, moisture proof, earthquake resistant, heat insulation, termite proof, 20 years ...

Introducing our Weatherproof and Earthquake-Resistant Folding Container House, designed for versatility and resilience. Ideal for use as mobile clinics, disposable hospitals, or secure living ...

In the Myanmar earthquake rescue, folding boxes played an important role with their characteristics of rapid deployment, efficient transportation and flexible adaptation to various ...

Advantages: 5 minutes quick installation, fireproof, waterproof, moisture proof, earthquake resistant, heat insulation, termite proof, 20 years service life. Foldable, reusable, safe, fully ...

A folding container house, built with galvanized steel frames and reinforced panels, laughs off 150-mph hurricanes, 5 feet of snow, and even moderate earthquakes.

Before we sell our folding container houses, we put them through a series of tests. We simulate earthquake conditions in a controlled environment to see how the house responds.
