How much does a photovoltaic module cost?

Mainstream Modules: Average price of EUR0.11/Wp, stable compared to September but 21.4% lower than January 2024. Low-Cost Modules: Average price of EUR0.065/Wp, a 7.1% decrease from September and 27.8% from January 2024. These trends are exerting mounting pressure on the photovoltaic sector.

What is the PV module price index?

The PV Module Price Index tracks wholesale pricing and supply of crystalline-silicon modules that have fallen out of traditional distribution channels, and as a result are listed for resale on the EnergyBin exchange.

Do PV modules lose resale value?

For historical secondary market PV module pricing from 2020 through 2023, download the 2023 PV Module Price Index from EnergyBin's Resources portal. Overall, the price index shows that new PV modules don't tend to lose resale value in the U.S. secondary market unless their technology is older, such as Legacy POLY modules.

How did PV module price development in February?

PV module price development according to PV Index of Sunstore. Average trading PV module prices were at 0.124 EUR/W across Europe in February both for bifacial and monofacial modules. PV PMI (Purchasing Managers' Index) score increased from 68 in January to 73 in February, underlining strong demand.

InfoLink Consulting provides weekly updates on PV spot prices, covering module price, cell price, wafer price, and polysilicon price. Learn about photovoltaic panel price trends ...

The PV Module Price Index tracks wholesale pricing and supply of crystalline-silicon modules that have fallen out of traditional distribution channels, and as a result are listed for ...

PV Index traces current trading prices for solar components on a monthly basis. Data is recorded on Sunstore,

an online PV trading ...

The continued rise in silver prices is increasing photovoltaic module manufacturing costs. Although official list prices in the European market have yet to fully adjust, quotation ...

IRENA presents solar photovoltaic module prices for a number of different technologies. Here we use the average yearly price ...

The market is currently in the seasonal off-peak period, and the module segment has failed to follow upstream price increases. Therefore, acceptance of price hikes in ...

IRENA presents solar photovoltaic module prices for a number of different technologies. Here we use the average yearly price for technologies "Thin film a-Si/u-Si or ...

With the historical contract price information in our database and capability of conducting fast and in-depth market analysis, EnergyTrend is equipped to provide both price trend and market ...

Every month we publish a current price index on the development of wholesale prices of solar modules. In doing so, we differentiate between the main technologies available on the market.

PV Index traces current trading prices for solar components on a monthly basis. Data is recorded on Sunstore, an online PV trading platform with 3 GW+ of components on ...

The updated guide to photovoltaic module prices shows the latest costs of solar panels across Europe. In August, high-efficiency ...

The updated guide to photovoltaic module prices shows the latest costs of solar panels across Europe. In August, high-efficiency modules dropped to EUR0.12 per watt, marking ...

The PV Module Price Index tracks wholesale pricing and supply of crystalline-silicon modules that have fallen out of traditional ...

Every month we publish a current price index on the development of wholesale prices of solar modules. In doing so, we differentiate between ...

Access Anza's free quarterly PV panel price insights report for pricing data from more than 95% of the U.S. module supply.

The market is currently in the seasonal off-peak period, and the module segment has failed to follow upstream price increases. ...
