Discover the largest upcoming BESS projects in Australia, from the 2.4GW Denman Battery to the Waratah Super Battery.

Investor interest in clean energy is booming. The Clean Energy Council's Q1 2025 report revealed that six major BESS projects secured funding, totaling AUD 2.4 billion and ...

The first quarter (Q1) of 2025 has seen a surge in investment for large-scale battery storage in Australia, with six projects worth a total ...

The three projects total 840 MW/2.9 GWh, while two were commissioned with a value of 56 MW/98 MWh. Overall, the strong start ...

Since then, investment in grid-scale battery energy storage in Australia's National Electricity Market - or NEM - has continued. 25 projects are now commercially operational in the NEM, ...

Listed below are the five largest energy storage projects by capacity in Australia, according to GlobalData's power database. GlobalData uses proprietary data and analytics to ...

Discover five energy storage projects revolutionizing Australia's energy landscape. Learn about innovative technologies, impressive capacity.

The first quarter of 2025 was the second best on record for investment in large-scale Battery Energy Storage Systems (BESS) in Australia, with six projects worth \$2.4 billion ...

The first quarter (Q1) of 2025 has seen a surge in investment for large-scale battery storage in Australia, with six projects worth a total of A\$2.4bn (\$1.5bn) reaching the ...

Discover five energy storage projects revolutionizing Australia's energy landscape. Learn about innovative technologies, ...

The three projects total 840 MW/2.9 GWh, while two were commissioned with a value of 56 MW/98 MWh. Overall, the strong start for grid-scale energy storage represents an ...

Australia has taken a decisive step in reshaping its electricity grid, awarding more than 15 GWh of battery energy storage projects in what marks the country's largest ...

As renewable energy continues to expand across the country, grid-scale energy storage systems are emerging as a critical foundation for balancing supply and demand, ...

The first quarter of 2025 was the second best on record for investment in large-scale Battery Energy Storage Systems (BESS) in ...
