How do I design a custom greenhouse?

Add irrigation, heating and cooling, greenhouse benches, and lighting to design a custom greenhouse tailored to you, whether you're a backyard gardener, an agricultural educator, a professional horticulturist, or a plant-lover anywhere in between.

What are the options for a custom greenhouse?

There are many options for a greenhouse frame, wall and roof coverings, venting and entryways. All custom greenhouses are designed to accommodate your growing needs, the local environment, the landscape, building codes and every other factor that must be considered.

Why should you buy a custom greenhouse from greenhouse Megastore?

When purchasing a custom greenhouse from Greenhouse Megastore, you are guaranteed a greenhouse that is aesthetically pleasing and highly functional. It can be automated, irrigated, heated and cooled to be an effective tool for growing and maintaining plants.

What is a greenhouse?

A growing environment designed specifically for you. A greenhouse is an aluminum-framed structure, glazed with glass or polycarbonate, that is used to propagate and/or grow plants. Solar Innovations® designs and manufactures custom greenhouses to each customer's exacting specifications, no matter the size or purpose.
