Rezolv Energy has secured a grant from the European Union under the NextGenerationEU programme for the deployment of a Battery Energy Storage System ...

Bulgaria is taking significant strides towards enhancing its renewable energy landscape with the introduction of 115 MW of new solar capacity alongside a robust addition of ...

Once completed, the plant is expected to generate over 265 GWh of electricity annually, supplying power to more than 45,000 households and reducing carbon emissions by ...

Several large-scale solar photovoltaic (PV) projects with a power capacity above 100 MW were launched into commercial operation in Bulgaria between 2021 and 2024. The ...

PPC Group is accelerating its expansion in the Balkans by laying the foundation stone for its Colosseum solar power project in ...

This investment aims to expand the country's energy infrastructure and support the growing share of ...

Bulgaria's Ministry of Energy has approved EUR588 million in funding for 82 standalone battery energy storage projects, totaling nearly 9.7GWh of usable capacity. The ...

Transformation of AES Galabovo into a large-scale energy storage facility using proven technology implemented in concentrated solar power plants (CSP) using molten salts

PPC Group announces expansion into the Bulgarian market by starting construction of a new photovoltaic power plant with battery storage, with a total installed ...

PPC Group is accelerating its expansion in the Balkans by laying the foundation stone for its Colosseum solar power project in Bulgaria. The facility will have 165 MW in peak ...

In 2024, GSL ENERGY successfully installed a 7.45MWh industrial-grade BESS energy storage battery system in Bulgaria, ...

This investment aims to expand the country's energy infrastructure and support the growing share of intermittent renewable power, particularly from solar and wind.

In 2024, GSL ENERGY successfully installed a 7.45MWh industrial-grade BESS energy storage battery system in Bulgaria, integrated with solar photovoltaic power generation, ...
