---

The wind project is expected to finalize site measurements by mid-2026 before moving to full-scale construction. According to Egypt's Minister of Electricity, Mahmoud ...

The city's ambitious plan to derive 42% of its electricity from renewables by 2030 faces a critical challenge: intermittent power supply. Solar panels sit idle at night while wind turbines stall ...

When news broke about Cairo's flagship energy storage initiative being postponed to late 2025, the renewable energy community collectively groaned louder than a wind turbine ...

The country has vowed to realize the full market-oriented development of new energy storage by 2030, as part efforts to boost renewable power consumption while ensuring stable operation of ...

The wind project is expected to finalize site measurements by mid-2026 before moving to full-scale construction. According to Egypt's ...

With projects in 20 countries, a 6GW+ project pipeline, and 1,600MW+ in operation and under/near construction, the company is rapidly expanding its investments in wind, solar, ...

Currently, there is a functioning station in Aswan, managed by AMEA Power, which adds 300 MWh of storage capacity to the grid. Work is ongoing to expand storage ...

"Achieving financial close for Egypt's first utility-scale BESS project--following the successful launch of our 500MW wind farm in Egypt--is a clear demonstration of our ability to ...

The plant will combine 1.1 gigawatt of wind power with 2.1 gigawatts of solar power, making it the first project in Egypt to merge both renewable energy sources.

CAIRO - 3 December 2023: Egypt signed a letter of intent to join the Battery Energy Storage Systems Alliance (BESS), which is one of the main initiatives of the Global Energy Alliance for ...

We construct, own and operate large-scale battery storage projects today that will transition us to the grid of tomorrow, with a growing portfolio of over 9,000 MW of battery storage projects in ...

"Achieving financial close for Egypt's first utility-scale BESS project--following the successful launch of our 500MW wind farm in ...
