How big is Antwerp's battery storage system?

With a power rating of 25 MW and capacity of 75 MWh, Antwerp's battery storage system is TotalEnergies' biggest in Europe. Commissioned last year, it helps offset the intermittency of renewable energies to encourage their development.

Is TotalEnergies developing a second battery storage project in Belgium?

Download the Press Release (PDF) Antwerp, April 3, 2024 - On the occasion of Belgian Energy Minister Tinne Van der Straeten's visit to TotalEnergies' Antwerp refinery battery storage project, the Company announced the development in Belgium of a second similar project. The new project will be developed on the site of TotalEnergies' depot in Feluy.

What is the largest energy storage project in Europe?

A first flagship energy storage project in Belgium After commissioning four battery parks in France offering total energy storage capacity of 130 MWh, this project will be the Company's largest battery installation in Europe.

What is the power rating of the Antwerp battery project?

The Antwerp battery project has a power rating of 25 MW and capacity of 75 MWh. The installation will be operational by the end of 2024. The project uses 40 Intensium Max High Energy lithium-ion containers supplied by Saft. TotalEnergies has a portfolio of 450,000 BtC and 100,000 BtB electricity sites in Belgium.

Thanks to process electrification and battery-based energy storage, the platform is contributing respectively to the decarbonization of ...

This initiative is a significant step in TotalEnergies' development of battery energy storage systems (BESS), reinforcing its presence across the entire electricity value chain in ...

“We are pleased to announce this new storage project in Feluy, just a year after we began our Antwerp project, which should be operational by the end of the year.

TotalEnergies, a global energy company, has initiated an ambitious energy storage project at its Antwerp refinery in Belgium. This groundbreaking endeavor involves the ...

Thanks to process electrification and battery-based energy storage, the platform is contributing respectively to the decarbonization of its industrial operations and to the growing ...

Paris, May 15, 2023 - TotalEnergies has launched at its Antwerp refinery (Belgium), a battery farm project for energy storage with a power rating of ...

TotalEnergies is collocating what will become Belgium's first battery-based energy storage system at its 338,000-b/d integrated refining and petrochemical platform near the Port ...

TotalEnergies is reconfiguring its Antwerp platform to advance the energy transition, incorporating green hydrogen, sustainable aviation fuel, and enhanced battery ...

This initiative is a significant step in TotalEnergies' development of battery energy storage systems (BESS), reinforcing its ...

TotalEnergies, a global energy company, has initiated an ambitious energy storage project at its Antwerp refinery in Belgium. This ...

Antwerp's battery storage development isn't just about megawatts - it's about creating a resilient, sustainable energy ecosystem. From port-side megaprojects to smart factory installations, the ...

Strategic Positioning of Key Players GIGA Storage Belgium: GIGA Storage is constructing the Green Turtle battery park in Dilsen-Stokkem, a 700 MW / 2,800 MWh installation. Strategically ...

Read the full analysis and gain a future-ready perspective on Belgium & Europe's energy storage frontier.

Paris, May 15, 2023 - TotalEnergies has launched at its Antwerp refinery (Belgium), a battery farm project for energy storage with a power rating of 25 MW and capacity of 75 MWh, ...

TotalEnergies is collocating what will become Belgium's first battery-based energy storage system at its 338,000-b/d integrated ...
