What types of inverters does Frecon offer?

FRECON offers a range of VFD inverters, solar pump inverters, off-grid inverters, HMI, PLC, and servo systems. We're leading industrial control solutions providers.

Who makes power inverters?

EPC Power is the only manufacturer in North America producing grid-scale power inverters. A power inverter is a device that converts electricity between AC (Alternating Current) and DC (Direct Current). AC electricity is the type that powers our homes through power lines, while DC electricity is commonly supplied by batteries.

What is Frecon fr200x series inverter?

Freon provides a series of HMI, PLC, and servo systems products. With the development of power semiconductor technology, AC inverter has been widely used in industrial washing machines in recent years. FRECON FR200X series inverter can satisfy high torque, multi-speed, wide voltage range, and high-temperature requirements.

What are the top ranked power inverter companies in 2024?

As of June, 2024, the top-ranked power inverter companies are: Applied Power Systems, Inc., SPI Lasers, and Maruson Technology. A power inverter is a device that transforms input current into alternating current (AC).

12 years experience in developing Frequency inverter, Servo drive, Saving cabinet, New energy; 20 engineers in R&D team; Quality control with IOS9001:2008 standard; All products with CE ...
