Can a containerized Solar System be installed off-grid?

Off-Grid Installer have the answer with a containerized solar system from 3 kw up wards. Systems are fitted in new fully fitted containers either 20 or 40 foot depending on the size required.

Why should you choose a modular solar power container?

Go big with our modular design for easy additional solar power capacity. Customize your container according to various configurations, power outputs, and storage capacity according to your needs. Lower your environmental impact and achieve sustainability objectives by using clean, renewable solar energy.

What is an off grid solar container unit?

Attaching to the grid can also be expensive and this can be an issue in the UK as well as Africa or Latin America. An Off Grid solar Container unit can be used in a host of applications including agriculture, mining, tourism, remote islands, widespread lighting, telecoms and rural medical centres.

Are off grid solar containers reliable?

Solar equipment is very reliable but occasionally parts may fail so there is need to monitor and solve any problems. Off Grid Solar container units guarantee security and reliability and allow the engineering team to complete installations in a few days rather than weeks.

About SunContainer Innovations: A leading provider of renewable energy solutions since 2012, we specialize in OEM/ODM services for solar storage systems, portable power stations, and ...

As a professional in the industry, I understand the importance of reliable power, and our system delivers just that. Whether you're looking for OEM options or a custom factory solution, we've ...

We are offering mini renewable power stations in a Off-Grid shipping Container ready to be deployed

worldwide. These include solar PV panels and mountings.
