Where is 5G coverage in Luxembourg?

5G coverage in Luxembourg is mainly concentrated in Luxembourg City and Esch-sur-Alzette with POST offering the most extensive network, followed by Tango and Orange (as shown on the maps in this article).

Which 5G network is best in Luxembourg?

POST clearly has the most extensive 5G network with very dense coverage across the centre, south, east and west of Luxembourg. 5G POST's coverage even extends beyond this, with an entire axis linking the north of the country. Tango comes second according to nPerf.

How fast is 5G in Luxembourg?

POST's 5G offers speeds of up to 1 Gb/s... Tango has a higher density of 5G speed readings reaching 1 Gb/s in the centre of the city of Luxembourg, and in a few rare places along the border with France. Orange 5G reaches 1 Gb/s in the centre of town Luxembourg and in the Gare district, according to the readings shown on the map.

How many 5G base stations are there in China?

In data collected between July 2022 and June 2024, China was reported to have had around 3.5 million 5G base stations installed across the country, with Chinese mobile operators investing heavily in 5G infrastructure. By comparison, the European Union had around 460,000 thousand base stations, while the United States had approximately 175,000.
