In Algeria the power plug sockets are of type C and F. Check out the following pictures. When living in the United States of America you need a power plug adapter for sockets type C and F.

What is the voltage and frequency of a power plug in Algeria?

And we provide more information about the voltage and frequency. In Algeria the power plug sockets are of type C and F. The standard voltage is 230 V and the frequency is 50 Hz. Power plug adapter needed in Algeria?

Are type C plug sockets allowed in Algeria?

Typically, type C plug sockets are not allowed to be installed in Algeria: these outlets are not earthed and are therefore considered dangerous. Only type F power points are permitted because they are grounded and therefore significantly safer. The only (and rare) exception to this rule is that an old type C outlet should be replaced by a new one.

What type of sockets does Algeria use?

Algeria is one of the very few former French colonies that did not adopt the type E standard that is used by France. Instead, it has standardized on type F sockets and plugs. Type C and type E plugs can also be used thanks to their compatibility with type F sockets.
