With exceptional energy efficiency, the EG4 Solar AC/DC Mini-Split excels in every aspect of its operation. By choosing an ENERGY STAR certified ...

The EG4 Solar AC is one of the most innovative ductless heat pump/air conditioners available; reduce your electric bill and keep your home the temperature you want with this energy ...

Like previous versions, it also needs no batteries, no inverter, no charge controller - just plug in the solar panels and start saving up to 100% on daytime cooling or heating costs.

24V DC powered mini split heat pump that can operate as ...

Mini Split runs directly off of 2 lead acid batteries or 8 LiFePO4 cells, ...

With a cooling capacity that can drop temperatures by 18° in just 15 minutes, it's perfect for areas up to 64.58 ft². Weighing 33.1 pounds and featuring an ergonomic handle, ...

Users of the EG4 mini-split can save money when compared to conventional central air conditioning systems. Pair this unit with a small string of solar panels to immediately begin ...

Mini Split runs directly off of 2 lead acid batteries or 8 LiFePO4 cells, providing the highest efficiency attainable for heating and cooling with no inverters. Perfect for any small 24 Volt off ...

Featuring the ability to plug directly into solar panels, this system accepts DC power from their PV array without the need for an intermediary device during the day or can draw AC power from ...

In simple terms, solar ACs use solar panels to power the air conditioning system. Solar panels collect energy

from the sun. They ...

Like previous versions, it also needs no batteries, no inverter, no charge controller - just plug in the solar panels and start saving up to 100% on ...

The EG4 24K Hybrid Solar Mini-Split offers a powerful, energy-efficient solution for year-round climate control. Delivering 24,000 BTUs of heating and cooling, this ductless system ...

The EG4 24K Hybrid Solar Mini-Split offers a powerful, energy-efficient solution for year-round climate control. Delivering 24,000 BTUs of heating ...

Users of the EG4 mini-split can save money when compared to conventional central air conditioning systems. Pair this unit with a small string of solar ...

24V DC powered mini split heat pump that can operate as an air conditioner and as a heater. This heat pump is 5 times more efficient than using an electric heater. It is at least ...

In simple terms, solar ACs use solar panels to power the air conditioning system. Solar panels collect energy from the sun. They convert this energy into power. That power ...
