Solar power is already used on the roofs of some buildings. JAHA SOLAR, a subsidiary of the larger JAHA-Group, was founded in 2016 and is the first producer of solar panels in the ...

The EIB is providing EUR33 million for the construction of one of Kosovo's largest solar photovoltaic plants. The new plant will contribute to higher energy security and the ...

Solar photovoltaic power plants have started emerging in some parts of the Kosovo Energy Corporation (KEK). The installation of the solar photovoltaic power plant started in ...

Yildirim Energy laid the foundation stone in Kosovo* for the first phase of its 150 MW solar farm. The Turkish company intends to produce electricity for its ferronickel plant, ...

Jaha Solar is a leader in the solar energy sector and innovative in this field in our country. Jaha Solar manufactures high performance and high quality ...

A photovoltaic system is being built on the areas where ash from the two coal-fired power plants at Kosovo A was previously deposited. It will have an installed capacity of up to 100 MW and ...

Kosovo Solar PV Project is a 120MW solar PV power project. It is planned in Pristina, Kosovo. According to GlobalData, who tracks and profiles over 170,000 power plants worldwide, the ...

By the end of 2023 only 10 MW of solar photovoltaics had been installed, though more plans exist and the country has a solar manufacturer capable of manufacturing 200 MW per year.

The EIB is providing EUR33 million for the construction of one of Kosovo's largest solar photovoltaic plants.

The new plant will contribute to ...

To support the green transition in Kosovo*, one of its largest solar photovoltaic plants will be constructed on former ash dump fields near ...

OverviewElectricity generationPolicy and regulationRenewable energy targetsTransmissionDistributionElectricity consumptionTariffsLignite exploitation in Kosovo started in 1922. New mines were opened to satisfy the needs by increasing generation capacities. Kosovo Energetic Corporation (KEK) is a public company, which owns and operates with generation assets of electric energy. The greatest part of generation capacities of Kosovo are the two power plants:

Jaha Solar is a leader in the solar energy sector and innovative in this field in our country. Jaha Solar manufactures high performance and high quality photovoltaic solar panels according to ...

Solar photovoltaic power plants have started emerging in some parts of the Kosovo Energy Corporation (KEK). The installation of ...

By the end of 2023 only 10 MW of solar photovoltaics had been installed, though more plans exist and the country has a solar manufacturer ...

To support the green transition in Kosovo*, one of its largest solar photovoltaic plants will be constructed on former ash dump fields near Pristina with a capacity of up to 100 MW. The ...

The Kosovo Energy Corporation (KEK) is set to begin construction of a 100 MW solar photovoltaic (PV) plant, a project financed by the European Union through its Economic ...
