Grid-connected solar panels adorn the roofs of classroom buildings at Marshall Islands High School as part of a World Bank-funded project to improve Majuro's energy system.

All required materials for the floating solar PV plant at the MWSC water reservoirs have been received in Majuro. Demolition of gensets 3 and 4 under the EPC contract has begun at the ...

In August 2016, Sunergise announced the launch of an innovative solar power generation plant designed to collect BOTH rainwater and solar ...

The project uses floating solar arrays in Majuro's lagoon - a first for Pacific island nations. This innovation increases energy production by 19% compared to land-based systems.

In Arno Atoll, MEC will construct new hybrid systems combining solar and diesel power in both Arno and Ine islands. The project will also modernize existing diesel power ...

Majuro solar farm is a solar photovoltaic (PV) farm in pre-construction in Majuro, Marshall Islands.

Grid-connected solar panels adorn the roofs of classroom buildings at Marshall Islands High School as part of a World Bank-funded project to ...

Senegal has begun commercial operations at a new solar energy facility that combines photovoltaic power with lithium-ion battery storage, the first of its kind in West Africa, as the ...

Majuro's journey to energy independence isn't just about technology - it's about creating a blueprint for all island communities. The question isn't whether to go solar, but how quickly it ...

Our renewable energy store and project office is conveniently located at the center of Majuro, and we also have a lagoon-side facility for training ...

MEC contractors will install solar panels with a generating capacity of eight megawatts, which when combined with the four ...

MEC contractors will install solar panels with a generating capacity of eight megawatts, which when combined with the four megawatts of solar systems now being ...

Our renewable energy store and project office is conveniently located at the center of Majuro, and we also have a lagoon-side facility for training outside of town in Ajeltake.

In August 2016, Sunergise announced the launch of an innovative solar power generation plant designed to collect BOTH rainwater and solar energy for the people of Majuro in The Republic ...
