What happened at Monterey County's largest lithium-ion battery storage facility?

When a massive fire erupted at one of the world's largest lithium-ion battery storage facilities in Monterey County, it didn't just send a toxic plume of smoke over nearby communities -- it cast a shadow of doubt over the future of California's clean energy industry.

Is there a fire at Valley Center energy storage facility?

But there's a problem with fires. A fire at Valley Center Energy Storage Facility in San Diego County is the latest in a series of incidents; advocates insist problems will get ironed out in time. Addison and two other state legislators sent a letter to the California Public Utilities Commission Thursday requesting an investigation.

Are there any active fire suppression efforts going on in Monterey?

"There are no active fire suppression efforts going on, as the best approach, according to fire staff, is to allow the building and batteries to burn," according to a Monterey Sheriff official. Both Vistra and the county official said that all site personnel had been evacuated and no injuries were reported.

How did Vistra's fire impact recovery efforts?

Both Vistra and the county official said that all site personnel had been evacuated and no injuries were reported. The fire also prompted the evacuation of places nearby. Vistra has not yet released any statement on the potential financial impact from the fire or any timeline on recovery efforts.

But the facility that went up in flames this week has a water-based suppression system and it is unclear why it failed, said Vistra Energy officials during the press conference. ...

As if California was not suffering enough because of the horrific wildfires sweeping through Los Angeles, a separate fire at the ...

Explore advanced fire safety solutions for energy storage systems, including fire suppression techniques and

innovative technologies to protect personnel and equipment.

Fire crews were called, but Vistra ultimately determined there was no fire, nor did the incident cause any harm to outside systems or any personnel. The facility uses a water ...
