-----

Montenegro's largest power utility, EPCG, said it plans to develop lithium-ion battery energy storage systems at four locations in order to harness excess renewable energy production and ...

Technological advancements are dramatically improving solar storage container performance while reducing costs. Next-generation thermal management systems maintain optimal ...

The cooperation between Montenegro and UGT Renewables will result in the construction of the country's first utility-scale solar power plant. Montenegro's EPCG and UGT Renewables are ...

From electric vehicle manufacturers to solar energy companies, these companies are constantly innovating to develop more efficient and environmentally friendly batteries.

Montenegro invests EUR48M in 240 MWh battery energy storage systems to enhance grid stability and accelerate its renewable energy transition.

The cooperation between Montenegro and UGT Renewables will result in the construction of the country's first utility-scale solar power plant. ...

The Niksic Power Storage project exemplifies how strategic energy investments can achieve triple wins: grid stability, renewable integration, and cost efficiency.

From Niksic's mountain communities to Mediterranean resorts, container energy solutions are reshaping how we store and distribute power. With smart technology and adaptable designs, ...
