Why is Mozambique acquiring 25-30 MW of solar PV?

The procurement of 25-30 MW of solar PV is the first stage of implementation of the program which will contribute to the diversification of Mozambique's power mix and improve power supply quality, whilst ensuring low-cost energy for Mozambican end users

When did Globeleq & Mozambique launch a solar power plant?

Our solar power plant in Cuamba was inaugurated in September of 2023. It marked another milestone for Globeleq and Mozambique, as it was the first IPP to integrate a utility-scale energy storage system.

Is battery storage a key technology for Mozambique's future?

Globeleq sees battery storage as a key technology for Mozambique's future. Storage costs are expected to continue decreasing, so those systems will become more competitive and will be able to contribute more.

Why should Mozambique be a regional power supplier?

First, to ensure that Mozambique has reliable and cost-effective power generation capable of meeting its 2030 electrification goals. Second, to establish Mozambique as a regional power supplier of choice. South Africa has a critical shortage of electricity, and Zambia and Zimbabwe also require power.

Our solar power plant in Cuamba was inaugurated in September of 2023. It marked another milestone for Globeleq and Mozambique, as it was the first IPP to integrate a utility ...

Emerging markets in Africa and Latin America are adopting mobile container solutions for rapid electrification, with typical payback periods of 3-5 years. Major projects now deploy clusters of ...

Mozambique's energy sector is transforming, driven by a new solar tender from MIREME and ARENE for decentralised solar and battery storage systems. This initiative aims ...

Our solar power plant in Cuamba was inaugurated in September of 2023. It marked another milestone for Globeleq and ...

No matter nights, rainy days or unexpected blackouts off the grid, the solar power is always at your request as a real bank. The built-in optimizer independently manages each battery module..

This guide provides a practical overview of the import process through Mozambique's key ports, Maputo and Beira, for sensitive solar manufacturing equipment and ...

This info session aims to brief developers, independent power producers, financiers, and other stakeholders about upcoming solar and energy storage tenders in Mozambique under the ...

This info session aims to brief developers, independent power producers, financiers, and other stakeholders about upcoming solar and energy ...

Mozambique's energy sector is transforming, driven by a new solar tender from MIREME and ARENE for decentralised solar and ...

Mozambique's Ministry of Mineral Resources and Energy has kicked off a tender for the development of decentralized solar and battery storage systems in the provinces of Nampula, ...

The Ministry of Mineral Resources and Energy of Mozambique, funded by the German Government through KfW, has announced a tender for solar photovoltaic and battery ...

Mozambique's Energy Regulatory Authority (ARENE) has launched a tender for the development of hybrid minigrids that integrate solar power and battery energy storage ...
