Does Ottawa have a battery energy storage system?

A battery energy storage system. (Photo by City of Ottawa.) Posted Jan 24,2025 01:47:28 PM. Last Updated Jan 24,2025 02:57:01 PM. Changes have been made to the city's Official Plan and zoning bylaws to create a building for storing electricity in off-peak hours from the grid.

Are Ottawa's new battery energy storage rules too far?

A city committee passed new regulations Thursday that lay out the ground rules for companies looking to build battery energy storage facilities in Ottawa, but residents are split on whether the new rules go too far -- or not far enough.

Who approves energy storage systems in Ontario?

The primary authority for the Installation and Approval of Energy Storage Systems connected to the electrical grid in Ontario is the Electrical Safety Authority (ESA). The ESA administers Part VIII of the Electricity Act and oversees the Ontario Electrical Safety Code (OESC).

Can a battery facility be built in Ottawa?

According to the new rules, companies looking to build a battery facility will have to show Ottawa Fire Services (OFS) that effective fire and safety risk management has been incorporated into the design. Companies will be required to install fire prevention and suppression systems, and provide OFS with site-specific training.
