---

Although energy storage comes in different shapes and sizes, the lithium-ion Battery Energy Storage System ("BESS") is the fastest emerging ...

Environmental organizations and a local renewable energy co-op are applauding Ottawa City Council's approval of a controversial and hard-fought battery energy storage ...

The Project represents a cost-effective solution to add capacity, enhance flexible grid operations, and save greenhouse gas (GHG) emissions in Ontario by reducing the need for carbon ...

Ottawa city council overturned a unanimous rejection of a municipal support resolution (MSR) for a controversial battery energy storage system (BESS) in the South March area.

Four solar panel projects in Ottawa have received the green light from city council and experts expect more will soon follow.

On May 9, 2024, the IESO announced that ten proposed BESS projects were selected, totaling 1,784 megawatts (MW) of energy ...

Ottawa city councillors voted to support a controversial battery energy storage system (BESS) facility in West Carleton despite the ...

The Battery Energy Storage System (BESS) enables Ottawa to integrate six newly approved solar projects and reduce increasing reliance on gas-fired electricity during peak hours.

On May 9, 2024, the IESO announced that ten proposed BESS projects were selected, totaling 1,784 megawatts (MW) of energy storage, including two to be located in rural ...

The project, which supports Ontario's goal to secure renewable, clean solutions for the province's electricity market, will use advanced batteries that adhere to high safety standards.

After initially rejecting a 250MW standalone BESS proposal in Ontario, Canada, from Brookfield portfolio company Evolugen, Ottawa City Council has pledged its support for ...

After initially rejecting a 250MW standalone BESS proposal in Ontario, Canada, from Brookfield portfolio company Evolugen, Ottawa ...

Ottawa city councillors voted to support a controversial battery energy storage system (BESS) facility in West Carleton despite the objections of rural councillors and ...

Although energy storage comes in different shapes and sizes, the lithium-ion Battery Energy Storage System ("BESS") is the fastest emerging technology in North America and is planned ...
