Who is Palau solar?

Palau Solar understands renewable energy. Our parent company, Utiligence, works exclusively in the field of renewable energy connectivity, helping to power solar, wind and hydrogen power on projects worldwide.

Are solar panels helping with the cost of electricity in Palau?

" Solar panels are really helping with the cost of electricity here. Palau Solar is a subsidiary of Utiligence, created to design, supply and install domestic solar power throughout the archipelago of the islands of Palau. Through a project with the Asian Development Bank, Palau Solar is transforming the islands with renewable energy.

How will solar energy be produced in Palau?

Solar electricity will be produced by a hybrid 15.3 MWdc (13.2 MWac) solar photovoltaic (PV) plus 10.2 MWac/12.9 MWh battery energy storage system facility. Extensive safeguards to protect Palau's pristine environment SPEC did not leave any stone unturned to protect the pristine Palau ecosystem.

What is the Palau solar battery project?

The Palau Solar Battery Project will be the largest such project in the Western Pacific. It will lessen Palau's imported fuel dependency, a major step towards its ambitious goal of 100%.

A proven track record: Building on the success of Palau Solar, we have a history of reliable, efficient installations and working with organisations ...

A Taiwanese company is seeking to introduce its state-of-the-art colored solar panel system to Palau in a bid to promote its technology ...

The Palau Solar team handles site surveys, system design, installation and maintenance, with support from
