-----

With a growing awareness of the benefits of solar power and the need to reduce carbon emissions, the Jordan Photovoltaic Materials Market is likely to experience significant ...

Amman-In a landmark development, Jordan has launched its first-ever anti-dumping investigation. The case targets imports of solar panels modules ...

News from the photovoltaic and storage industry: market trends, technological advancements, expert commentary, and more.

Quality Jinko Solar has successfully completed the Positive Quality continuous quality assurance program conducted by the Australian Solar Council. Reliability Jinko solar modules have been ...

Amman-In a landmark development, Jordan has launched its first-ever anti-dumping investigation. The case targets imports of solar panels modules from China, and marks a bold step in ...

Quality Jinko Solar has successfully completed the Positive Quality continuous quality assurance program conducted by the ...

In 2024, Jordan made significant advancements in its solar photovoltaic (PV) sector, reflecting its commitment to expanding renewable energy and achieving greater energy ...

All the solar panels, inverters, and storage in a container unit make it scalable as well as small-scale power solution. The present paper ...

In this context, this paper adapted the Theory of Inventive Problem Solving (also known as TRIZ) to improve

the performance of ...

All the solar panels, inverters, and storage in a container unit make it scalable as well as small-scale power solution. The present paper discusses best practices and future ...

He played a pivotal role in developing key national and regional initiatives, including the National E-Mobility Strategy for Jordan, ...

He played a pivotal role in developing key national and regional initiatives, including the National E-Mobility Strategy for Jordan, the Smart Grid Options Study, and a ...

The recommendations have been updated to include key definitions and actors present in the Jordanian solar industry, the main elements of the legislative framework governing ...

In this context, this paper adapted the Theory of Inventive Problem Solving (also known as TRIZ) to improve the performance of photovoltaic systems; with less cost, less time, ...

This study, therefore, develops a system dynamics model to examine the effects of the FiT policy and the quality of RPV products and services on social acceptance to install ...
