---

Sofia will generate enough renewable energy to power the equivalent of up to 1.2m typical UK homes. It is on course to be fully operational in the second half of 2026.

RWE's Sofia offshore wind farm in the UK has reached several major milestones in the construction of foundations and onshore ...

Sofia Offshore Wind Farm is located 195 km from the nearest point on the UK's north east coast, and will have a single offshore ...

Sofia Offshore Wind Farm is located 195 km from the nearest point on the UK's north east coast, and will have a single offshore converter platform, with the electricity ...

RWE's Sofia offshore wind farm in the UK has reached several major milestones in the construction of foundations and onshore and offshore electrical systems and is now ...

Today takes us a step closer to achieving our mission for clean power by 2030, with over a million homes expected to be powered by the cutting-edge turbines of Sofia wind ...

RWE, a global leader in offshore wind energy, is celebrating significant progress in the construction of its 1.4 gigawatt (GW) Sofia offshore wind farm, located on the Dogger Bank ...

RWE, a global leader in offshore wind energy, is celebrating significant progress in the construction of its 1.4 gigawatt (GW) Sofia ...

Today takes us a step closer to achieving our mission for clean power by 2030, with over a million homes expected to be powered ...

At full capacity of 1.4 GW, Sofia will generate enough renewable electricity to power 1.2 million UK homes, reinforcing RWE's commitment to sustainability and Siemens ...

Signed on July 28, 2025, in Sofia, the deal marks a major step in energy transition for Southeastern Europe, combining SUNOTEC's expertise in solar infrastructure with Sungrow's ...

The converter system within a wind turbine, powered by IGBT modules, is the unsung hero that tames volatile wind energy, converting it into high-quality, grid-compliant electricity. [pdf]

This isn't just another wind farm--it's a bold statement in the global energy transition, blending cutting-edge tech, sustainability, and economic muscle. With key ...

Sofia Offshore Wind Farm is located approximately 195km off the north-east coast of England. When operational, it is expected to generate enough electricity to power ...
