-----

With rolling blackouts becoming as common as sunflower fields, the country's push for energy independence has turned battery storage from a 'nice-to-have' into a national ...

GE Vernova launches RESTORE DC Block, a modular BESS solution offering enhanced safety, efficiency, and long-term performance for utility ...

The energy storage provider said on Monday that the contract will see it equip six BESS sites, to be located at multiple sites across Ukraine. The facilities will have individual ...

The energy storage provider said on Monday that the contract will see it equip six BESS sites, to be located at multiple sites across ...

In this data-driven industry research on energy storage startups & scaleups, you get insights into technology solutions with the Energy Storage Innovation Map. These trends include AI ...

Ukrainian energy storage charging pile DTEK and Fluence have begun commissioning Ukraine's largest battery energy storage system, a 200 MW/400 MWh installation spread across six sites ...

On May 2, we held a EUEA Members-only workshop in collaboration with the Green Deal Ukra?na (Georg Zachmann) and EUEA Member IMEPOWER (Yuri Kubrushko), ...

On May 2, we held a EUEA Members-only workshop in collaboration with the Green Deal Ukra?na (Georg Zachmann) and EUEA ...

The new project aims to strengthen Ukraine's energy security and support the transition to a greener energy

system. DTEK Group aims to commission the new storage ...

GE Vernova launches RESTORE DC Block, a modular BESS solution offering enhanced safety, efficiency, and long-term performance for utility-scale projects.

With frequent grid instability and rising energy costs, commercial operators are turning to storage systems like never before. From solar farms needing overnight power buffers to factories ...

As Ukraine rebuilds its power infrastructure amid ongoing challenges, lithium battery energy storage systems (BESS) have emerged as a game-changer.

The new project aims to strengthen Ukraine's energy security and support the transition to a greener energy system. DTEK Group aims ...

DTEK is to build a series of energy storage systems in Ukraine with a capacity of 200 MW to help build a secure and green energy system. EUR140 million will be invested in the ...
