Akuo structured its local Uruguayan subsidiary in 2008, focusing on the development, construction and operation of new projects in mainly wind, solar and lithium storage energy sectors.

Uruguay built a power grid that runs 99% on renewables--at half the cost of fossil fuels. Here's how its bold energy overhaul became a ...

The new technologies identified in the midterm are aimed at incorporating non-manageable or variable renewable energies, such as wind power, in order to develop battery ...

The wind energy farm in Uruguay was inaugurated by the President of Brazil, Dilma Rousseff, and the President of Uruguay, Jose Mujica. This farm is the first of its kind joint venture between ...

Ultimately, all parties agreed on a plan to install "no less than 300 MW of eolic [wind] power and 200 MW of biomass," as well as to continue searching for fossil fuels on ...

Akuo structured its local Uruguayan subsidiary in 2008, focusing on the development, construction and operation of new projects in mainly wind, ...

Despite this opening of the energy market to non-state entities, it still served as a de facto monopoly. In the same way Uruguay's abundance of wind and rivers proved fortuitous ...

Distribution of wind potential Annual generation per unit of installed PV capacity (MWh/kWp) Wind power density at 100m height (W/m²)

Despite this opening of the energy market to non-state entities, it still served as a de facto monopoly. In the same way Uruguay's ...

Uruguay built a power grid that runs 99% on renewables--at half the cost of fossil fuels. Here's how its bold energy overhaul became a global model.

Ultimately, all parties agreed on a plan to install "no less than 300 MW of eolic [wind] power and 200 MW of ...

Méndez Galain's innovation lay in reversing that dynamic: Private companies would be responsible for installing and maintaining the ...

Its proximity to Argentina and Brazil make for relatively easy electricity trade between the countries, and in 2016 Uruguay began exporting excess wind power generation to neighboring ...

Méndez Galain's innovation lay in reversing that dynamic: Private companies would be responsible for installing and maintaining the wind turbines that would supply ...

Investor CVC DIF has completed the sale of a 170MW operational wind portfolio in Uruguay. The investor's DIF Infrastructure V (DIF V) and DIF Infrastructure VI (DIF VI) funds ...
