When will a 5G network launch in Morocco?

November 2024 update: The opening of the tenders related to the allocation of 5G licences is expected by Q1 2025 whereas the launch of the first 5G network activations in developed cities of Morocco is expected roughly twelve(12) months following the opening of tenders. 5. If specific rules are drafted, what do they say?

Which bands should be used for 5G in Morocco?

In Morocco, we would recommend that the 800 MHz (CDMA) and 3500 MHz (BWA) bands are examined to determine their potential for 5G. We understand that the 3500 MHz band is already being studied for 5G.

What is a 5G base station?

A 5G network base-station connects other wireless devices to a central hub. A look at 5G base-station architecture includes various equipment, such as a 5G base station power amplifier, which converts signals from RF antennas to BUU cabinets (baseband unit in wireless stations).

What is the Morocco digital 2030 strategy?

November 2024 update: As part of the Morocco Digital 2030 strategy, it has been stated that works will be implemented to reconfigure the frequency spectrum, to liberalize the bands used for the 5G and to connect base transceiver station) sites with fibre optic connections. 3. What public tenders have awarded spectrum licences ? N/A
