What is a tycorun battery swap cabinet?

The swap cabinet uses intelligent charging strategies to optimize battery performance, with easy maintenance, real-time fault alarms. TYCORUN batteries are built for business swap applications, using top-tier cells that withstand high-frequency daily cycling, with shock resistance, high safety, and integrated smart 4G GPS.

How many battery swap cabinets are there?

With rich industry experience, we have deployed more than 5,000 battery swap cabinets and put into use 65,000+ smart lithium batteries, providing convenient services for drivers in more than 35 countries around the world, helping clients build a profitable and scalable battery swap business.

Is battery swapping station a good solution for electric vehicles?

Meanwhile, the issue of energy supply for New Energy Vehicles (all-electric cars, plug-in hybrids, and hydrogen fuel-cell vehicles) is becoming more pressing. All parties concerned pursue the goal of resolving the issue of energy replenishment for electric vehicles safely, easily and smartly. The battery swapping station is a good solution.

How a battery swapping cabinet is managed by Shenrui?

Program Process ---- The battery operation data and the operation information of the battery swapping cabinet are uploaded to the cloud for management through the IOT module of the battery swapping cabinet. Shenrui provides on-board VCU, vehicle control module, replacement battery BMS module, module and cloud platform data can be directly linked

Optimize your electric vehicle charging experience with our state-of-the-art battery swap cabinets tailored for electric motorcycles and ...

TYCORUN Battery Swapping Station Solutions are designed for electric two- and three-wheelers, integrating
