-----

Climate change induced droughts are a major concern now for Zimbabwe's power sector, leading to calls from stakeholders for the country to accelerate plans to diversify its ...

In this article, I will argue that the only way to restore Zimbabwe's energy sector, and by extension, its economic stability, is to privatize the Zimbabwe Electricity Supply Authority ...

Zimbabwe has inaugurated the Melfort Solar Power Plant, its largest solar facility to date, with a capacity of 100 MW. Located just 40 ...

The solar energy industries in Zimbabwe and Zambia present compelling opportunities for Pristine Power Solutions, albeit with distinct ...

Okay, maybe energy storage containers don't crack jokes, but Harare's containerized energy storage systems are doing something far more impressive - ...

The potential for growth in Zimbabwe's solar industry is immense. Statistics on how many solar panels, inverters and batteries ...

Distributed Power Africa wants to construct, own, operate and maintain a 3.5MW solar photovoltaic plant in Harare. The electricity generated will be sold to Varun Beverages.

For decades, the Zimbabwe Electricity Supply Authority (ZESA) held a monopoly over the supply of electricity to homes and businesses across the nation. That era has now ...

Zimbabwe finally ends the ZESA monopoly, allowing private companies to buy and sell electricity directly to

neighbourhoods in a major energy policy shift.

The global solar storage container market is experiencing explosive growth, with demand increasing by over 200% in the past two years. Pre-fabricated containerized solutions now ...

Distributed Power Africa wants to construct, own, operate and maintain a 3.5MW solar photovoltaic plant in Harare. The electricity ...

The solar energy industries in Zimbabwe and Zambia present compelling opportunities for Pristine Power Solutions, albeit with distinct market characteristics and ...

The potential for growth in Zimbabwe's solar industry is immense. Statistics on how many solar panels, inverters and batteries have been imported are very difficult to get hold of.

Zimbabwe has inaugurated the Melfort Solar Power Plant, its largest solar facility to date, with a capacity of 100 MW. Located just 40 kilometers from Harare, the plant is a ...
